

**Science, Art and Writing Initiative
Permissions Form**

The Science, Art and Writing (SAW) initiative (www.sawtrust.org; registered charity no. 1113386) is an innovative way of getting young people excited about exploring and understanding science and of stimulating creativity across the curriculum. The SAW Trust would like permission to use the artwork and poetry from the SAW Project at your child's school in publications, presentations and on the SAW Trust website for the purposes of documenting the Project and for publicity. We would also like permission to use photographs/videos of the children who are involved in this Project. We confirm that the students will retain the copyright to their work.

With many thanks,

Professor Anne Osbourn

Chair, the SAW Trust
